West Coleman Co-Eds Win Double-Header Softball Games

Local Girls Hostesses to Visiting Teams and Their Managers at a Supper After Games

The West Coleman Co-Eds pulled off a splendid double victory last night when they defeated the Fernie and Michel softball clubs, 18-8 and 8-6.

The first game against Fernie was marked by good pitching and splendid support on the part of the fielders on the local team. Ferguson on third base was in rare form and her hefty throws from third to first wined many times.

Fernie started off in whirl-wind fashion by scoring three runs in the first and five in the second, while Coleman could only reply with three. With the score 8-3 against them, the Co-Eds started to play heads up ball and scored one in the third and one in the fourth, putting the game on ice in the fifth when they started the old merry-go-round to score nine runs and four more in the sixth for good measure, to make a total of eighteen runs while holding their opponents scoreless. Final score Coleman 18, Fernie 8.

Batteries: Coleman, Johnson and Mohovitch.

Fernie: Coles and Kosic.

Coleman vs. Michel

After a five minute rest, Coleman took the field against the Michel club. Michel hit hard and often in the first inning against McLeod, who seemed a little nervous at the start, to score three runs. Coleman replied with one. Michel was held scoreless in the second while Coleman scored twice to tie the score at 3-3. Michel forged ahead in the third when they scored two more while only allowing Coleman one run when they came to bat. Coleman came back in the fourth to tie the game. Both teams were held scoreless in the fifth. The sixth inning saw Coleman take a three run lead when Michel failed to score. Michel played desperately in the seventh to tie the score but could only manage to put across one run. Final score: Coleman 8, Michel 6.

Batteries: Coleman, McLeod. Mohovitch.

Michel: Katrichak, Chas.

The large crowd that watched the games were well satisfied with the exhibition and encouraged the girls on to victory. After the games the Co-Eds were hostesses to the visiting teams and their managers at a supper held in the United church club room.

Attending C. W. N. A. Convention

H. T. Halliwell, editor of The Journal, is attending the annual convention of the Canadian Weekly Newspapers Association being held in the Mount Royal Hotel, Montreal Aug. 16-17-18. Charles Clark, editor of the High River Times, is the retiring president for 1933-34, and he will be succeeded by Charles A. Barber, of the Chilliwack (B.C.) Progress.

The convention is to be addressed by Mayor Houde of Montreal, Dr. J. A. Colquhoun, deputy minister of Education for Ontario; H. A. Nicholson, editor of Printer and Publisher; Adam F. Smith, president of the Canadian Advertising Agencies Association; Premier Taschereau of Quebec, Floyd S. Chalmers, editor of the Financial Post, and others.

Lord Atholstan, proprietor of the Montreal Star, is holding a garden party for the visiting editors and wives.

Travelling Library

A few months ago Miss McNaughton, from the Department of Extension, University of Alberta, came to Coleman and tried to promote a public library. As a result of her efforts The Men's Brotherhood, through the courtesy of the Department of Extension, have placed a free library in Webster's store.

The library consists of 40 volumes, two thirds of which are fiction, the remaining one third of general literature, including essays, poetry, history, travel, biography, art and science.

Social Credit Meeting

Coleman Social Credit Group held a very successful meeting in the United church club room on Monday evening when a general discussion was held on social credit problems. The next meeting of the group will be held on Monday evening, Aug. 20 at 8 p. m. when Mr. J. McLean of Bellevue will be the guest speaker. Other speakers will also contribute to the program. The group extends a cordial invitation to all persons interested.

Tennis Notes

Seven Magrath players motored to Coleman on Saturday morning to take part in a friendly tournament with the local players. Play was very keen and many games went to three sets before a decision could be reached. Coleman, however, proved the stronger club and emerged victors without the loss of a match.

Magrath players taking part in the games were: L. Ehleit, J. L. Hawkey, N. E. Blaxall, G. Miller, R. H. Robertson, Miss F. Sabay. Mrs. N. E. Blaxall was an interested spectator.

The Fernie tennis club will be the guests of the local club on Sunday.

Creagan defeated Lindoe in the first round of the McGillivray Cup competition.

COLEMAN HOMING SOCIETY

Result of race from Didsbury 142 miles air line. Birds liberated at 10:20 a. m. Saturday, arrived 2:31:50 p. m.

C. Roughhead	992 7 yds
J. Anderson	989 1 yds
J. Sudworth	986 5 yds
W. Harrison	985 4 yds
T. Jackson	985 3 yds
W. Pryda	974 1 yds
C. Makin	972 7 yds
A. Beigum	962 0 yds
F. Beddington	951 9 yds
J. Claes	951 7 yds
A. Eysackers	951 3 yds
M. Tarcon	951 0 yds
E. Raymond	950 9 yds
J. Claes	950 7 yds

Prizes were donated by George Dickson and J. A. McLeod.

Big Business and Small

We read an article lately setting forth that small retailers do more damage to trade than large ones. A man with small capital and no experience goes into merchandising. He gives credit, not knowing his customers, loses his own money and some of his creditor's money too. No doubt, no doubt. But we know no way to prevent this either, no legislative enactment can protect a man against himself and although the learned professions are protected against unqualified entrants we do not see how the same restrictions can be applied to trade and commerce.—High River Times.

Personal Christmas Cards are now on display at The Journal office. Call in and see samples or phone 309 and have our representative call.

CORRECTION

Schools will open on Monday, August 27th.

Coleman Red Sox Loses to Blairmore Canucks

Coleman Red Sox again tasted bitter defeat at the hands of their old rivals, the Blairmore Canucks, on the local ball diamond, Monday evening. Coleman had no one to blame but themselves in losing the ball game. Time and again they had runners on bases but failed to score through not being able to hit at the critical time.

Blairmore scored in the first inning when Gusty singled later scoring, aided by two errors on the part of Ryplen. Blairmore scored three more in the third when Herman hit a triple scoring two men in front of him. Martin singled to score Herman. Coleman came to life in the fourth. Atkinson hit a triple and scored when Kulisia singled. Ryplen hit a double to score Kulisia. Coleman tied the game up in the sixth when Emmerson singled to score Ryplen and Yagos. Errors proved the downfall of Coleman in the eighth and ninth innings when Blairmore scored three more runs. The game however was not over till the last ball had been thrown. Gusty weakened in the ninth and Coleman filled the bases with two men out and three on bases. Ryplen was called to bat. When one good hit would tie or win the game, Coleman again fell down in the pinches when Ryplen hit a weak grounder to K-m-p who retired the side.

Batteries:

Coleman: Yagos, Atkinson. Blairmore: Houbreggs, Gusty, Van Duren.

Coal Production

Coal production in the province during June totalled 230,980 tons, compared with 220,533 tons during June of 1933. Total production for the first six months of this year was 2,018,112 tons compared with 2,008,978 tons for the same period of 1933.

U. S. Market for Alberta Coal

The recent action of the U S government in deciding to admit Canadian coal without duty, will it be believed, bring new business to Alberta coal mines, for both domestic and steam coal. The Alberta government trade commissioner has recently been advised of the new arrangement.

ST. PAUL'S UNITED CHURCH

Rev. F. Antrobus will have charge of the morning service. Sunday school at 12.15.

The evening service will be conducted by Mr. Williams or Mr. Holmes.

Mrs. Charles Nicholas and family left on Sunday by car for a two weeks holiday at Spokane.

Government Liquor Control Act of Alberta

Application for Beer Licence. PUBLIC NOTICE is hereby given that the undersigned intend applying to the Alberta Liquor Control Board for a licence to sell Beer by the glass or open bottle for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta and the Regulations made thereunder with respect to the following premises:—

The westerly portion of the ground floor of the Coleman Hotel situated upon Lots 1 and 2, Block 11, Plan Coleman 8805.

Dated at COLEMAN the 7th day of August, A.D. 1934.

JOE LIPOVSKI,
MARTIN LUSCICH,
Applicants.

Let There Be Light

More light in dark places has been suggested as a preventive of burglary. Street lights being turned off at 1:30 a. m. is considered to be an aid to those who love darkness under which they may carry on their depredations. Now that the town has been granted a lower rate for street lighting, there is reason for more liberality being shown in order to give further protection.

Annual Meeting of Mining and Metallurgy

At the forthcoming annual meeting of the Canadian Institute of Mining and Metallurgy, to be held at Calgary Sept. 13-14 H. Wilton-Clark, B. Sc. has been invited to simplify the paper on Coal Preparation and Cleaning of Coal, which he read at a recent meeting of Rocky Mountain branch. Crown Nest section.

Executive committee members of the branch are as follows: Crown Nest, Alberta section: R. Livingstone, J. McIntyre, J. A. McLeod and F. E. Millitt.

British Columbia section: H. P. Wilson and E. L. Warburton. Calgary and District: R. T. Holland, C. W. Dingman, T. B. Williams, Carl C. Cook.

Mr. David Davidson of Alexo, Alberta, announces the engagement of his youngest daughter, Catherine Black, to Mr. Victor Deacon Wallace of Calgary, youngest son of Mr. and Mrs. William M. Wallace of Winnipeg.—Calgary Herald.

Mayor and Mrs. Pattinson left this week to spend their summer vacation at Spokane.

The local junior football team are to be congratulated on their decisive victory over the Corbin junior eleven whom they trimmed 4-1 on Tuesday afternoon.

Local News

Mr. Ed Bernard spent the week end at the home of Mr. and Mrs. Wm. Fraser.

Helon Dibble is spending the week in Pincher Creek, the guest of friends there.

Mrs. D. Nevey is spending two weeks vacation the guest of friends in Edmonton.

The office hours of W. I. Freck, local optometrist will be found in the business directory of The Journal.

Ray Spillars was allowed home this week after being a patient in the local hospital for the past few weeks.

The Coleman football club motored to Michel on Sunday where they lost a close decision by a 2-1 score. Fernie club will play here on Saturday and a good game is assured.

Mr. A. Henderson, of Lethbridge was the guest of Mr. and Mrs. W. Pryde over the week end returning on Sunday evening with Mrs. Henderson who spent two weeks holiday at the home of her parents.

Two men were arrested on Saturday evening for violating the Alberta Liquor laws. When brought before Magistrate Gresham they were found guilty and each fined \$20 and costs.

C. W. McKinnon left on Tuesday for a month's vacation in Stratford, Ont. Mr. McKinnon will be joined by Mrs. McKinnon and daughter Grace who have been holidaying in the East for some time.

Mr. and Mrs. Wm. Cousins left on Wednesday morning's train for a three weeks vacation at the coast. Mr. Cousins was confined to his home last week through illness and he expects the change to do him good.

First Aid Meeting Poorly Attended

Business Held Over Till Next Meeting of Coleman St. John Ambulance Association

The meeting called on Friday evening by Mayor Pattinson for the purpose of arranging a presentation to fittingly honor the members of the First Aid team who were successful in winning the Coderre Cup was poorly attended. The five persons present were: Mayor Pattinson, A. McCulloch, R. Greenhalgh, J. Rushton and E. Houghton.

John Rushton, secretary of the St. John Ambulance Association in Coleman, stated that he had failed to receive official communication from Ottawa relating to the victory of the International team in the Coderre Trophy and till such time as he did there was very little that the local association could act upon.

After hearing the secretary's report it was decided by those in attendance to hold the matter in abeyance till the annual meeting of Coleman St. John Ambulance Association to be held the first week in September.

A car driven by Mr. S. McDowell, of the local telephone exchange, collided with a truck, both westbound west of Macleod last evening, doing considerable damage to the car. Mr. McDowell sustained injuries necessitating his removal to the Macleod hospital, where it is understood he will be obliged to remain a few days. Mrs. J. O. Robb's passenger with McDowell, suffered a shaking up and arrived back in Blairmore today.—Blairmore Express.

Joe Plante reports very good fishing at the Carbondale last Sunday.

"Fresh from the Gardens"

The Checkerboard And Peace

"Britain's frontier is now the Rhine." This statement, made in the British House of Commons by Stanley Baldwin while acting premier during the absence, in Canada, of Ramsay MacDonald, and used to epitomize his plea for extension of Britain's aerial fleets, thrust into vivid prominence the altered status of the mother country in regard to her European neighbors. Development of aircraft by continental powers has banished that security from hostile attack guaranteed heretofore by a powerful navy and the "chalk cliffs of Dover". Automatically, her frontier has been pushed outward step by step with the growth of foreign air armadas and the increasing range of potential enemy aeroplanes.

Synchronizing, as it did, with the disturbing sequence of events which preceded and followed the assassination of Chancellor Dollfus of Austria, the debate in the British house startlingly revealed the extent to which the atmosphere surrounding the European scene had been impregnated with fear of war. No wonder Britain's statesmen are perturbed; no wonder the chamberlaines have been striving to secure some effective guarantees of territorial integrity among the storm-racked powers of Europe!

The fear of war can be traced directly to the militarization of Germany under Adolf Hitler, and the obvious ambition of the Nazis to extend the sphere of German influence until the Reich becomes dominant in European affairs. Prior to the Austrian embargo, a concerted movement had been launched in Europe whose objective was (and is) effectively to curb Nazi ambitions of territorial expansion, west, east and south. The western frontier, marching with France and Belgium, had, of course, been "guaranteed" by the agreements contained in the Locarno treaty of 1925. Germany, France, Belgium, Great Britain and Italy had agreed, individually and collectively, to guarantee the inviolability of the Franco-German and Belgio-German boundaries as defined by the Treaty of Versailles. There had also to be a complete demilitarization of German territory west of a line drawn east of the Rhine.

Agreements with respect to eastern boundaries, however, were not sanctified by as far-reaching commitments and mutual guarantees. It is true, there was a network of arbitration treaties involving Poland, Czechoslovakia, Germany and also France, but the Reich would not go so far as to accept as inviolate and permanent her eastern border. In fact, the hope has been cherished assiduously in Berlin that sooner or later there would come a revision of the German-Polish boundary which would restore Danzig and the Polish Corridor to the Reich. It is this rift in the lute of peace, diplomats of Europe are now seeking to close by means of what has become known as an "Eastern Locarno".

The "Eastern Locarno" pact now proposed calls for a mutual assistance agreement involving Hungary, Rumania, Poland, Czechoslovakia and Germany, and would provide mutual guarantees of their respective frontiers and for mutual aid against an aggressor seeking to upset the status quo. As Germany is the only nation fundamentally opposed to the present territorial set-up, the real meaning of the "Eastern Locarno" is apparent.

The actual significance of the proposed treaty is that Nazi Germany's ambitions would be curbed. If Berlin signs (and it has been put squarely up to Hitler), it would mean voluntary acceptance of her present boundaries, all around. It would mean definite renunciation of the Polish corridor and German claims to Upper Silesia. It would mean the stabilization of Europe in its present form. That apparently, is the key move to peace on the European checkerboard.

Apparently, too, "Locarno" is the formula of peace upon which European chancelleries pin their greatest faith. In addition to the "Eastern Locarno", a similar treaty, known as the "Southern Locarno", designed to preserve the Mediterranean status quo and involving, probably, Turkey, Italy, Greece and Yugoslavia, also is mooted.

Carbing Crime

Feminine Crusade Against Crime Started in United States

A feminine crusade against crime—designed to eliminate depredations of the Dillinger type—drew commendation from the United States department of justice.

The crusade has been given tremendous impetus recently by powerful women's organization.

"Women can play a most important part in the curing of crime," said William Stanley, acting attorney-general.

"They can compare the form of government of their locality with the form in localities where not so many crimes are committed. We plan to set up a central bureau to furnish such information."

"If they find an unusual amount of crime, it is certainly indication that there can be improvement. They can demand improvement."

Correct Definition

A Sunday school teacher of modernistic tendencies was telling his class that the miracles recorded in the Bible were not to be taken too literally. "My impression is . . .," said he. Then, by way of testing their knowledge of words, he asked, "Can any of you tell me what an impression is?" "Please, sir," said a shrill voice from the corner, "an impression is a dent in a soft spot."

Some Odd Professions

Many Queer Ways Of Earning Living In India

Apparently, the West has not the sole monopoly of queer ways of earning a living, for the following extract is taken from the current Census Report, an official publication of the government of India, and shows that there are in India such odd professions as those practiced by: Sellers of Grasshoppers, Pourers of Water on Gods and Goddesses, Hallelujahs, Suckers of Bad Blood, Settlers of Gold Nails in Teeth, Breakers of Dead Bullock Horns, Cradle Swingers, Professional Identifying Witches, Charity Receivers on Burial Grounds, Drivers Away of Epidemics by Chimes and Ear Wax Removers. In addition, the Census tables reveal that altogether there are 37,778 people earning their living as horoscope casters, astrologers, wizards, witches, mediums and fortune-tellers.

According to the regulations, apples are not considered stemless so long as any portion of the stem is left in the stem end, provided the skin is not broken.

The Great Lakes region is known to weather men as one of the stormiest lands in the world.

Five and a half is the average size of shoes worn by women.

Hotels In Sahara Desert

Had To Be Taken By Camels In Small Parcels

As the French penetrate further and further southward into the Sahara, pacifying the roving Arab tribes as they go, hotels are being erected for the accommodation of government officials, visiting army officers, business men and the occasional venturesome tourist.

The hotels had to be taken south through the desert, in parcels. Each parcel weighed about 200 lbs. and was one camel-load. Caravan after caravan, travelling 45 days through the sands brought to Timimoun, in the far south of Algeria, the many tons of windows, doors, glass, china, linen, cutlery, furniture, electrical installation and other equipment needed for the local hotel. Neither foremen nor European laborers would agree to go there, so the place was built by French army engineers, who themselves had to trace in the sand the first outline of the building because the superstitious wild Arabs of the region feared The Evil Eye, and would not have anything to do with blue-prints. They did consent to make the mud bricks, however, which form the walls, and to drag up to the site the date-palm trunks forming the roof beams and "glider-work."

The rest had to come in parcels. Even the ships of the desert bringing the parcels were temperamental. They would not travel on even such good hard roads as were to be found along their line of route, but had to be steered over soft sandy courses. Camels suffer from bad spells of foot soreness unless allowed soft tracks.

Drouth In South Dakota

Guards Patrol Water Holes In Western Part Of State

Instead of fat cattle and bumper crops the water famine has brought gaunt beasts and meagre yields approaching a crop famine in South Dakota, the estimates of agricultural experts showed.

Already the federal government has sent \$26,600,000 into South Dakota for drouth relief since September, 1932. This sum is exclusive of corn, hog and wheat benefits and cattle purchases. Yet debts exist, mortgages are held on cattle and land.

C. J. Borum, agricultural statistician of the state college of agriculture at Brookings, estimated wheat would run about 4.5 bushels to the acre. Forty-two thousand acres remain out of 296,000 acres which were planted.

Guards patrol water holes in the western part of the state. Drinking water is carted miles to be sold in some sections.

Japan Develops New Art

Sculptography, by means of which persons or objects may be photographed in solid form, has been developed in Japan. Sculptography's greatest contribution to science, according to its sponsors, is in replacing the human element in the making of sculptures where exact likeness is more important than the artistic element. Just as photography replaced painting for such purposes, so sculptography has replaced ordinary sculpturing.

Automobiles De Luxe

Spring beds, shower baths, and radio sets are fitted to a fleet of automobiles in which an expedition intends to cross Asia from Syria, through Persia and Pamir to China, and returning through India.

Model Hospital System

Irish Free State Using Sweepstakes To Further Project

With \$15,000,000 spent and an equal amount awaiting distribution, the Irish Free State hospitals commission is laying out an early day when they will be the envy of the world's surgeons and medical research workers.

Ambitious plans for the permanent endowment of the hospitals of the country are being laid by the hospitals commission. The help of the League of Nations' health section has been invited so the commission can have the best advice at the laying of the foundations of the project. Twelve sweepstakes have already been held.

The hospitals commission, a body headed by Michael Doran, former chief European engineer for Henry Ford, controls the vast sums which have been painlessly raised in every corner of the globe and prevents haphazard extensions by existing hospitals so as to prevent waste and overlapping. While allowing sufficient cash to trickle out of the fund for current needs the commission is proceeding with its task of evolving a model hospital system for the Free State in which every institution will be co-ordinated with its neighbor.

Soviet Buying Arms

Newspaper Claims Shipments From England Going To Russia

A London newspaper says that it is able to reveal that the record exportation of arms from Great Britain, amounting to £2,482,246, was due mainly to orders from Soviet Russia.

The arms consisted largely of machine guns and munitions. More than three-quarters of the total found their way to Russia.

The permission of Whitehall had to be secured for these large shipments.

The reason for these rush orders is that Russia is feverishly buying up the products of the world's armament factories in readiness for the struggle she believes is approaching with Japan.

The armaments business is phenomenally busy.

Although the figures stand so high, they would have been much larger owing to insistent demands from Paraguay and Bolivia, but in these instances applications for licenses by the munitions manufacturers have been turned down by the foreign office.

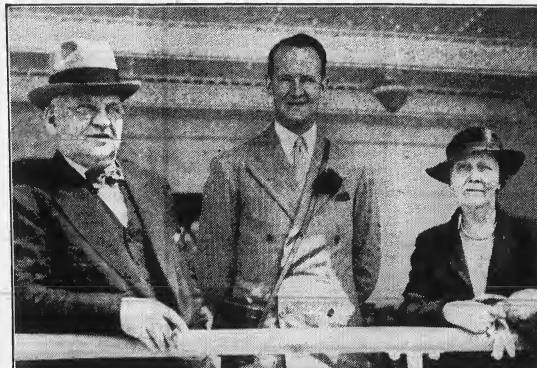

Flags Raised Huge Sum

Kitchener Flag Collected \$150,000 For World War Fund

Flags which raised hundreds of thousands of dollars for helpless soldiers and refugees during the World War have just been presented to the Australian government by Edward Solomon of Melbourne. They are to be hung near the National War Memorial at Canberra when it is completed. The most treasured relic in the collection is the Kitchener flag which alone raised \$150,000. It is an Australian flag, which was sent nearly 200,000 miles and twice around the world to collect signatures. It was signed in the trenches by Joffre and Haig. A star from it was sent to Admiral Jellicoe, which he signed and returned for sewing into the flag. The autographs of the King and Queen were later added. Finally the flag was sent back to Australia where it was raffled in 1918.

The mourning cloak butterfly chirps.

CANADIAN HIGH COMMISSIONER HERE FOR HOLIDAY

This photograph, taken on board the Canadian Pacific liner, Empress of Britain, shows Hon. G. Howard Ferguson (left), Canadian High Commissioner in London, arriving home again for his annual holiday from the strenuous duties of office. With Mr. and Mrs. Ferguson is Sir James Waterlow, Bart., son of a former Lord Mayor of London, who is here for a visit.

Canada's Industrial Prairies

Report Shows Western Provinces Are Becoming Industrialized

Canada's prairie provinces—Manitoba, Saskatchewan, and Alberta—are rapidly becoming industrialized. While these provinces, often referred to as "The Bread Basket of the World", are famous for their output of agricultural products, at the same time manufacturing plays an important part.

According to a report issued by the Dominion Bureau of Statistics, in 1932 the three prairie provinces manufactured goods with a selling value at the factory of \$187,451,377. Establishments engaged in manufacturing numbered 2,687 and represented a capital investment of \$354,450,263. These plants provided employment to 38,964 workers who received salaries and wages totalling \$42,435,765. The value of materials purchased totalled \$92,247,846 and the value added by manufacture amounted to \$95,203,533.

Flour and feed mills led all industries with an output valued at \$24,246,761. Slaughtering and meat packing followed with products worth \$23,704,599. Other leading industries were butter and cheese to the value of \$15,754,928, central electric stations \$15,683,275; railway rolling stock, \$12,014,633; petroleum products, \$11,058,020; printing and publishing \$8,787,444; breweries, \$6,359,259; printing and bookbinding, \$4,417,145.

Not A Jew

Sir John Simon, British Foreign Minister, Denies He Is Of Jewish Origin

Sir John Simon, British foreign minister, denied he is a Jew. Sir John wrote the denial to a correspondent who had drawn his attention to statements current in Britain and abroad that the foreign minister was of Jewish origin.

At the same time Sir John expressed hope his denial would not be distorted to make him appear sympathetic with anti-Semitism, an attitude he regards as "un-English" and which he "utterly condemns". The minister's correspondent had mentioned reports that Sir John's ancestry had powerfully influenced the national government since he became foreign minister.

Radium in raindrops has been detected by G. R. Wait and A. G. McNish, of the Carnegie Institution's Department of Terrestrial Magnetism.

Daughter—Going to bed, mother dear? Aren't you going to sit up and wait for Dad?

Mother—What's the use? I have such a cold I can hardly speak.

Agricultural Notes

Interesting Items Gleaned From Many Sources

There were 36,863 less hogs graded in Canada for the first six months in 1934 than in the corresponding period of 1933.

When salting cucumbers, a layer of dill and a handful of mixed peas may be placed on the bottom and top of the crock.

The cheaper cuts of beef should be used in making soup, both because of their low cost and because they come from those parts of the animal which are richest in extractives.

Bacon exports to the United Kingdom continue to make headway, and the movement to date this year is very far ahead of that for the corresponding period of last year.

On July 14, 1934, 15 geldings, 23 mares, 18 steers, 11 heifers, 6 cows, 6 bulls, 3 stallions, and 1 herd horse, all strays, were in the various official pounds of Alberta.

The British Crown colony of Trinidad and Tobago, with which Canada does an increasing trade, is the largest in area of any of the island colonies in the eastern group of the British West Indies.

A roast will brown more readily if sufficient flour is rubbed into the surface to make it dry. This also assists in preventing the escape of the juices.—Beef Bulletin, Dominion Department of Agriculture.

The demand for honey in all the principal countries of the world arises from three main sources: (1) from domestic consumers; (2) from various manufacturing trades, confectioners, bakers, chemists, etc., and from the catering trade.

According to the regulations governing fruit trading in Canada, the phrase "properly packed" means that apples, pears, plums, etc., are not slack in the receptacle, or over-pressed, or in a condition which is likely to result in permanent damage during handling or transit.

No fruit of any kind intended for sale shall be packed in any package other than the packages prescribed under the regulations of the Fruit and Honey Act, 1934, for each individual kind of fruit, except that where packages are not identified as for an individual kind of fruit, they may be used for any fruit.

For the month of June exports of cattle to the United Kingdom were approximately 500 head smaller than for June, 1933, the movement being affected by market conditions, but for the first seven months of this year the number of cattle exported to Great Britain exceeded last year's corresponding period by 1,343 head.

When honey from more than one person is included in one shipment under one inspection certificate, the person assuming responsibility for the shipment must place a designating mark, registered with the Dominion Minister of Agriculture, on all lots of honey included in the shipment, for the purpose of identifying the packer.

Attention has again been drawn by the Livestock and Meat Trade Review, published by the Dominion Department of Agriculture, to the evil of overloading the Monday livestock market. Such action is a direct snub to the law of supply and demand, and not among its least evils is that it largely affects cattle of a value last able to support marketing costs, adding further costs to the carryover.

Few People Escape Attacks Of Summer Complaint

Summer Complaint may be slight, or it may be serious, but you can't tell when it seizes you how it may end. Allow the profuse diarrhoea, the vomiting and purging to continue, for 1 day or two, and you may become weak and prostrated.

Just as soon as you feel any looseness of the bowels go at once to your drugist and get a box of Dr. Fowler's Extract of Wild Strawberry and check this unnatural action before the weakening looseness can get started.

Don't experiment. Get "Dr. Fowler's". It has been on the market for 88 years.

Hope Is Expressed That Number On Relief Will Soon Be Reduced

Ottawa.—Hopes are expressed in official circles that the number on direct relief in Canada will soon be well below 1,000,000 persons. The total reached 1,500,000 in March and April of 1933, which was the high point. The last complete figures available here were for June and were slightly over 1,000,000.

Agreements between the Dominion and the provinces whereby instead of providing a percentage of all direct relief requirements, the Dominion makes a definite monthly grant to each province have been prepared and will likely be executed soon.

The number on direct relief has not diminished in proportion to the increase in the employment figures. This is one feature of the situation that has been given considerable study by officials here.

Several factors enter into this. Many persons who had substantial resources when the depression began have seen these resources gradually melt away. There are the thousands of young men who were kept by their parents, but finally went on relief.

The hope is expressed the totals on relief will fall very substantially during August and September. The Dominion's building program is gradually getting under way and should lessen the number on relief.

Confidence is also expressed the new agreements with the provinces will work out to prevent any underserving from obtaining relief.

Strengthen Gold Reserve

Flow Of Hoarded Gold To London From India Now \$750,000,000

New York.—The flow of hoarded gold from India to London, which began with Britain's price-fixing scheme, has now reached the sum of \$750,000,000.

This movement of metal from the hide-aways of the east is a major factor in strengthening the financial basis for economic recovery. In the opinion of many commentators, much of the gold has gone into the vaults of central banks where it provides the foundation for credit and currency.

Pension For Dollfuss' Widow

Will Receive Sum Equal To Chancellor's Salary

Vienna.—The semi-official Wiener Zeitung published a decree by which Austria accorded the widow of Dollfuss a pension for herself and her children.

The widow will receive during the term of her widowhood a yearly amount equal to the late chancellor's salary. In addition she will receive a special sum for each of her children. In the event of her re-marriage the children will continue to receive special pensions until they come of age.

Canada-To-England Flight Accomplished By Two Daring Aviators

London.—The first successful Canada-to-England flight was written in to Trans-Atlantic crossing records, but two gallant aviators failed in their attempt to set a long distance record.

When James R. Ayling and Leonard Reid set down their "Trail of the Caribou" at Heston aerodrome they had covered approximately 3,700 miles from Wasaga Beach, Ont., their take-off point. Their goal was Bagdad, Iraq, 6,500 miles from the Georgian Bay shores.

Many flights over the Atlantic from Newfoundland have been successful, but the few attempts from Canada—none within comparatively recent years—have failed.

Ayling and Reid left Wasaga Beach at 6:12 a.m. E.D.T. They landed at Heston at 1:07 E.D.T., an elapsed time of 30 hours and 55 minutes.

A rapidly diminishing supply of gas forced them to change their plans and land in England, the flyers said.

"It was a wonderful 'rip,' said Reid, 'but we surely are disappointed we couldn't continue on to Bagdad.'"

"We had bad weather most of the way across the Atlantic. The controls jammed several times. So when the gasoline supply seemed to be dropping we thought it best to land."

Anyhow, we're glad we landed safely," Reid added.

The flyers said they had been running into increasingly unfavorable weather. They landed in a private flying field at Heston in Middlesex, shortly after flying over London.

When the black-winged biplane came to the ground in a perfect landing, the few members in the Heston clubhouse rushed out in surprise. They were amazed when they learned who the flyers were.

"We are glad to be here," they told spectators, who showered congratulations upon the two men. "What shall we do about customs regulations?"

Their calmness brought a gasp of surprise. "It's all done as nonchalantly as if they had come from just around the corner," said one official at the aerodrome.

Customs requirements met, the flyers took off for Hatfield, some part of the ship when it was "Seafarer II," piloted by Jimmy Molison and his wife, Amy Johnson.

Marketing Plan

Plan To Be Put In Operation, Beginning With Apples

Toronto.—The Globe in a special despatch from its Ottawa correspondent says the Dominion government's experiment in control and regulation of marketing of natural products will be inaugurated this week. The first products to be dealt with under the scheme will be apples and pears, the Globe says.

The first step in launching the scheme will be the designation of a minister to take charge and it is expected Hon. Robert Weir, minister of agriculture, will start the task at once. The cabinet will then pass approval on Mr. Weir's selections for the federal marketing board after which the act will be promulgated.

The Globe added: "Mr. Weir, it is understood, will take personal and active charge of the operations of the federal board, whose primary function will be to deal with the various schemes submitted by producers throughout the Dominion. The federal organization is expected to include in its various departments such officials as Dr. H. J. Booth, formerly director of markets for Saskatchewan; and an authority in the department of the wheat situation, R. L. Wheeler, acting fruit commissioner in the absence of G. E. McIntosh, who is ill; J. F. Singleton, dairy commissioner, and G. B. Rothwell, livestock commissioner.

Reformed Calendar

Windsor Man Proposes System With Five Weeks In Each Month

Windsor, Ont.—A 12-month year with five weeks in each month and six days in each week is the simplified calendar which Alexander J. Gilmore, of Detroit, has before the world to-day. He would eliminate Saturday.

His plan would make a working year of 360 days, during which time the calendar would be unchanged from month to month. Sundays would always come on the seventh, 13th, 19th and 25th each month. There would be no Friday, 13th.

To take up the remaining five days, Mr. Gilmore would have them follow Christmas, being a series of festival days. They would end with New Year's day.

May Go To Geneva

Premier Bennett May Head Delegation To League Conference

Ottawa.—Premier R. Bennett may head Canada's delegation to the meetings of the assembly of the League of Nations which opens in Geneva, September 10. Mr. Bennett has never attended an assembly meeting, and many friends of the league have urged him to do so.

Should he decide to go he will probably leave early enough to spend some time in Great Britain before proceeding to Geneva.

Start Dionne Home

Callander, Ont.—Excavation work has started for the new home of the 11-day-old Dionne quintuplets. The modern brick building will be known as "the Dafoe hospital for the Dionne quintuplets." In honor of the middle-aged north country practitioner who has amazed the world with the favorable progress his direction has brought the infants.

DEPOSED "PRESIDENT"

According to Germany's constitution, Dr. Erwin Bumpe, President of the German Supreme Court, should have succeeded the late President Paul von Hindenburg. His term of President would last only until a successor could be elected, but Hitler elected himself before Bumpe had a chance at the post.

No Change This Year

Government House In Ontario Not To Be Closed

Toronto.—Decision as to the maintenance of an official residence for the lieutenant-governor of Ontario will be reached when the legislature meets. Premier Mitchell Hepburn has stated. Asked if he was going to close up government house, Mr. Hepburn said the funds for this year had been voted and no change would be made.

"A resolution will be introduced in the house next session, either by the government or a member dealing with the matter," he said. "It will be left to a vote of the representatives of the people and I don't think there is much doubt of the result."

Mr. Hepburn said he had no desire to harass or annoy the lieutenant-governor but had to give effect to the will of the people to curtail expenses. The governor was appointed by the federal government and consequently the province had nothing to say as to his \$10,000 salary but a decision had to be reached as to whether the province should continue to maintain a residence. In his opinion it should not.

Leaves To Claim Fortune

Former Alberta Man Will Use It To Establish Innocence

Toronto.—John F. Gallagher, convicted in 1922 of the murder of John G. Coward in Alberta, sentenced to be hanged and later acquitted, has left for England to claim \$500,000 which an aunt promised him if he settles down and marries before Dec. 25, 1938.

Gallagher, who has been living in Toronto during the last three months under an assumed name, was convicted of aison when his home in Alberta was destroyed by fire. Sentenced to life imprisonment, he appealed and sentence was judged excessive. It was reduced to 10 years and he served the term in full. Gallagher plans to use a portion of the fortune he will receive in England in an effort to establish his innocence of the arson charge and bring to justice the murderers of Coward and I. Fuller, friends and neighbors in Carbon, Alberta, both of whom were killed within a year.

Ontario Premier Says Banks Must Lower Interest Rates

Streetville, Ont.—Premier Mitchell F. Hepburn of Ontario told 5,000 people at a Liberal gathering in Peel park he was going "to break the throttling hold of the banks in Ontario." The premier charged the banks with collusion in keeping interest rates at a high level.

Unless the banks dealt fairly with the public, the premier said, the government would either extend its savings bank system or go to the United States for its loans. His statements were made at the reception Streetville gave to Hon. Duncan Marshall, Ontario minister of agriculture.

Mr. Hepburn said he was not "threatening" the banking institutions but merely serving notice on them, but he added they could "only go so far before public sentiment turns against them."

He referred to the interest rates asked by the banks on the refunding of bonds, and added: "Every bank quoted the same price, 3.5, and obviously this points to collusion."

"I say to the banks—which we all admire for their stability—they can only go so far and then the public sentiment turns against them. If they won't deal fairly with the public we have other courses open to us."

Studying Crec Lean Plan

Would Give U.S. Farmers Control Of 1935 Supplies

Washington.—A gigantic crop loan plan which would leave control of 1935 supplies in the hands of farmers who grow them is hatching in the United States farm administration.

Modelled after this year's corn and cotton loans, the plan will call for government loans on a wide range of other crops. There will be a stipulation that supplies must be sold when prices rise to a certain point.

Last year the government advanced farmers 10 cents a pound on stored cotton, and 45 cents a bushel on corn sealed in cribs or warehouses. This pegged prices at those levels and officials say the plan was a success.

As prices advanced beyond those levels recently, farmers began selling crops, paying off loans and making a profit for themselves.

Resignation Announced

General Manager Of Canadian Airways Going To U.S.

Winnipeg.—Resignation of Wilfred C. Sigerson, general manager and controller of Canadian Airways, Limited, was announced here by James A. Richardson, president.

It is understood Mr. Sigerson will leave here shortly to take an executive position with an aviation company in the United States. Mr. Sigerson was elected controller of Canadian Airways, Limited, when the company was formed through amalgamations.

We can extend the government savings bank or go across the line for our money."

The Dominion government, he pointed out, obtained a two-per cent rate when they made a loan in the United States recently.

"Let me remind you that our credit in Ontario is just as good as that of the Dominion," he continued. "I am not threatening the banks, but if they think they have control they are sadly mistaken. We will take a chance and borrow our money in the United States."

"You people have a government at Queen's Park that is not in collusion with the banks or any other interests. Mr. Bennett is adamant in his attitude towards monetary reform. I ask Mr. Bennett to ease up credit so we can expand. I ask him to follow the example of Mr. Roosevelt. The Ontario government does not control the monetary system. That is entirely a federal matter."

"I appeal to Mr. Bennett to go further with the policy of revaluation of gold. Failure of the government to deal effectively with monetary reform has been the chief obstacle to progress. We are coming into an era of cheaper money and I welcome it."

Profit On Wheat

Presumably Belongs To The Three Western Pools

Ottawa.—Statisticians at work when wheat recently touched a dollar a bushel for the May delivery at Winnipeg, estimated a book profit of \$20,000,000 on the government incursion into wheat price stabilization.

The profit, if finally realized according to John I. McFarland, manager of the selling agency, presumably belongs to the pools of Manitoba, Saskatchewan and Alberta and not to the Dominion, which guaranteed the manoeuvre to the banks.

The profit does not affect the return to the farmer and is predicted upon this year's reduction in yield in western Canada and the crop failure in western Manitoba and southern Saskatchewan.

Elected By Acclamation

Hon. Peter Heenan Wins Uncontested Seat For Ontario Legislature

Kenora, Ont.—Hon. Peter Heenan, appointed to the Ontario cabinet by Premier Mitchell F. Hepburn as minister of lands and forests, was elected by acclamation to the Ontario legislature in the Kenora-Rainy River by-election.

Resigning his seat in the federal house, Mr. Heenan was nominated by the Liberals for the Kenora-Rainy River seat when Earl Hutchinson, Liberal, resigned to pay the way for Mr. Heenan's entry to the Ontario cabinet. When the time limit for nominations passed, Mr. Heenan's name was the only one submitted and he was declared elected by the returning officer.

Farm Credit Act Is Designed To Assist Debt-Ridden Farmers

Ottawa.—Within 10 days, the government will proclaim the Farm Credit Act passed last session, enabling debt-ridden farmers to arrange compromises with the creditors and start over again financially, it was announced.

It probably will apply first to Manitoba, Saskatchewan and Alberta, where the need is most, being extended later to all provinces. M. A. MacPherson, former attorney general for Saskatchewan, has been in Ottawa two or three weeks, drafting regulations under the act and starting it in motion. He will not be a permanent official.

In a statement, the former Saskatchewan official said the purpose of the law was to provide legal machinery of the simplest type, enabling financially-distressed farmers to secure relief from their over-powered debts. At the same time, it provided safeguards for the creditors.

In passing the legislation, Mr. MacPherson's parliament "felt that the debtor and creditor can be brought together easily and the actual facts and circumstances obtained by reasonable and frank consideration then, that there should

and would be an understanding arrived at."

The legislation makes available to both sides the opportunity that there may be fair investigation of the true situation.

This should mean a fresh start for the debtor—a start which will mean that while he will still have obligations, these obligations will be so rearranged that he can face the future with confidence and be no longer in default. Each party must be prepared to deal reasonably with the other. A settlement is needed between debtor and creditor and it must be made without destroying the basis of credit and confidence, and as was without undermining the basis of co-operation.

If, under the act, the parties at their meeting cannot agree, then there is provision for appeal to a tribunal which can formulate a binding proposal, basing it upon the "present and prospective capability of the debtor to perform the obligations prescribed and the productive value of the farm" (section 12).

NOTES AND COMMENTS

BLAIRMORE'S wide thoroughfare—dignified with the name of Victoria street, presumably in honor of the late Queen Victoria—is undergoing beautification. The ambitious project of water sprinklers and a planted boulevard appeals to popular imagination, while storekeepers on the "main drag" will rise up and call the council blessed in taking steps to abate the dust nuisance which all Pass towns suffer from. Blairmore is more fortunate than Coleman in its location, for it's townsite was not developed in the immediate vicinity of a mine tippie, therefore it can keep its face cleaner than Coleman. Our main business section should have been developed along Second street, but like Topsy, the town just "grewed up" right in the path of the coal dust from our life-giving industry, which cannot now be changed except at an expense out of proportion to the benefit.

COLEMAN should not be deterred from attempts to improve its main street; rather it should energize itself with increased effort to overcome its drawbacks. The widely used Red Trail highway is travelled by thousands of tourists during the year, and main street is the only part of the town that comes under their inspection, not with any very favorable impression, owing to its handicaps and grotesque styles of architecture and store fronts. There's nothing like seeing ourselves as others see us in order to correct our faults, however unpleasant the truth may be.

HON. HARRY STEVENS, Federal minister of Trade and Commerce, has aroused keen interest particularly among the masses by his declaration that packing houses, tobacco and shoe manufacturers and large buyers of merchandise for retail sale have been guilty of unethical practices which have exploited producers and helped to bring wage scales down to starvation levels. Many of the "big interests" beneficiaries complained of his personal sentiments being made public until they had an opportunity to give their side of the story.

WHATEVER they may have to say in reply will not eliminate the facts that vicious practices have been prevalent. Sufficient evidence has already been heard which is difficult to deny, in which people worked for sweatshop wages insufficient to give them an existence, and which had to be augmented by public relief.

ADMITTING that Mr. Stevens has been out of order in airing his views prematurely, to the dismay of his own party leader and the "big shots" in finance and industry, he has brought to light things which the public are entitled to know, as they have to bear the burden of unethical practices and exploitation. Whether Mr. Stevens continues as chairman of the investigating commission or not, he has brought out into the open many things which for long have been suspected by those who did not need to dig very deep to know there was something rotten in the system whereby scandalous conditions were forced on poor working people—piece-workers in their own homes who had no union to protect them from murderous exploitation, as well as farmers who sold their hogs for a cent a pound, and tobacco growers the price of whose product was fixed by someone outside of their own country.

LAST WEEK'S burglary has its repercussions. The mounted police's jurisdiction does not cover the town of Coleman; they maintain daily patrols and night patrols over the district which is not governed by the town council of Coleman, and the mining companies' properties. The town council engages a policeman for day duty, combined with other duties incident to the office. The fact remains, that no provision is made for protection when most needed, in the still dark hours of early morn when many a dirty deed is done; when the town is plunged into inky darkness. On whom does the responsibility rest for protection of property? Storekeepers cannot be expected to roll up in a blanket in the store to scare off marauders, but naturally they do expect to be given a fair share of protection against burglary and fire.

THE EASE with which burglars can get away in automobiles makes it all the more necessary that their crime be discovered quickly to give the police a chance to follow a hot trail. The fact that no provision is made to enable them to detect crime promptly is not the fault of the rank and file; it is the fault of those responsible for not making provision for protection. Its no use digging our heads in the sand and ignoring the fact that the town has been lax in its provision for night police protection.

IN FAIRNESS to the mounted police, notification of the burglary of last week did not reach them at Blairmore till 8 15 a.m., and a man was on the spot here ten minutes later, after being notified by the town police. These facts serve to emphasize the necessity for the town putting on a night patrol, for it was not until passers-by came on the scene that

the alarm was given. One policeman cannot be on duty night and day; therefore a second policeman is required. As a matter of public concern, and in fairness to the police, the facts are brought to the public's attention.

MRS. R. UPTON TO OPEN MUSIC STUDIOS

Mrs. Upton, wife of Rev. Richard Upton, of Bellevue, Blainmore and Coleman about September 1st, and will teach the following subjects: piano-forte, voice, pipe-organ and choral work.

For the past fifteen years, Mrs. Upton has been a prominent figure in musical circles in northern and central Alberta, where she has taught music and directed choirs with marked ability. Her choirs and pupils have been frequent competitors in the Alberta musical festivals and, within recent years her choirs, both adults' and children's, have carried off first honors.

A few weeks ago, Mrs. Upton returned from the city of New York, where for the past year she has been studying music at Union Seminary, under a faculty of the leading musicians of that city, directed by Dr. Clarence Dickinson, one of the greatest living American musicians and composers.

For some years Mrs. Upton has been an active leader of church music in the province, directing choirs in the city of Edmonton and several towns.

The course in sacred music at Union Seminary is specially designed to provide leadership for church directors of music. Mrs. Upton is among the first in Western Canada to take this training, and should bring to the church life in The Pass a new impetus in the beautifying of church music.

Mrs. Upton possesses an attractive singing voice herself, and during her stay in New York held a salaried position with the Brick Presbyterian choir, Fifth Avenue. She has excellent references from Dr. Dickinson, Dr. A. S. Tuttle, principal St. Stephen's College, Edmonton; C. J. Elliott, clerk of Norwood United Church Sessions; Mr. H. G. Thunell, mayor of Viking, and others.

Camp Fires Prohibited

An extremely serious fire situation exists in the forest areas in the south western part of the province, and the foothill range country adjacent, states Hon. Hugh Allan, provincial Minister of Lands and Mines.

Open camp fires are prohibited in the area roughly described as the territory south from the Bow River to the United States boundary and west of the Calgary-Macleod line of the C. P. R. Camping is not prohibited, however, in this area, provided satisfactory stoves are used.

Everything that can be done in the way of precautionary measures has been already effected by the provincial forest service, the minister stated, and a special warning is once more being issued to all campers, tourists and others inhabiting the danger zone so that the intense seriousness of the situation might be borne in mind.

Every caution, it was stated, should be employed against the present menace to life and property. The smallest act of carelessness might be responsible for incalculable destruction which might carry with it loss of life as well as property, the destruction of large tracts of valuable timber or the loss of feed for stock. The spark from a match or cigarette was all that was required to start a conflagration of immense proportions.

Actor Passes

The death occurred recently in Boston, Me. of J. Watt Dixon, known to many in Lethbridge as a leading member of the Scottish Musical Players who played two engagements at the Majestic last winter. He was a noted baritone of Glasgow and Rutherglen districts in Scotland. — Lethbridge Herald

Typographic Display Is Important

TYPOGRAPHIC display is a vital factor in the pulling power of an advertisement. Distinctiveness in advertising appeal creates as much interest as clothes, or the appearance of a store. Nothing can compare or impress public opinion so forcefully as typographic display. A confused jumble of poorly printed matter is largely wasted effort and money.

For real pulling power which creates a favorable impression among prospective purchasers in this district, the wide-awake advertiser invariably uses

LOCAL AND GENERAL

Mrs. T. Flynn entertained a few ladies on Wednesday afternoon.

Mr. and Mrs. Arthur E. Graham spent a few days in Calgary visiting friends.

Mr. and Mrs. C. J. Devine and family returned home from Kaslo on Sunday.

Mr. and Mrs. Hoyle and family returned from the coast after a month's holiday.

Mr. and Mrs. E. X. Hill are spending a holiday at Vancouver, leaving by car last Friday evening.

Mr. and Mrs. D. Jesse and Miss A. Jenkins of Seale are the guests of Mr. Robert Jenkins.

John Pratt, injured in a mine accident a few weeks ago, is making rapid progress towards recovery.

Misses Margaret and Ethel Dunlop are spending a short holiday at Kaslo, B. C.

Mrs. M. W. Ferguson was a business visitor in Lethbridge on Tuesday.

Mr. and Mrs. Frank Creeggan and party motored to the North Fork on Wednesday.

Bill Apponen, who has spent the last month in Calgary at the home of his sister, returned last week.

Misses M. Milley and E. Dunlop are home after completing the term at summer school.

Mrs. H. T. Halliwell and daughters Marjorie and Audrey, left on Wednesday morning to spend a two week's vacation at Vancouver.

Miss Violet Wilson returned on Monday after spending two weeks in Pincher Creek, the guest of Mrs. Morris.

Mr. and Mrs. Joe Emmerson and family returned on Tuesday evening after a month's vacation on the Pacific coast.

Mr. John Ruston and son George left on Sunday for a motor trip to Saskatchewan for ten days holidays.

Miss M. Marcellus and Miss M. Arnold, of Calgary, have been the guests of Mrs. T. Bowen during the last two weeks.

Mr. and Mrs. Fletcher of Lethbridge and Mr. F. McDonald of Edmonton were the guests of Mr. and Mrs. L. Lindoe over the week-end.

Mr. and Mrs. H. Willett accompanied by Mr. and Mrs. W. Graham were Lethbridge visitors on Sunday.

Mr. and Mrs. Neil Fleming, accompanied by Mr. and Mrs. A. Dewar, motored to the coast on Sunday.

Mrs. N. R. Shaw and children of Calgary are visiting at the home of Mrs. Shaw's father, Mr. A. Apponen.

Miss Peggy Smith returned to Edmonton on Thursday last after spending a month in Coleman, the guest of Miss Belle Flynn.

Misses Edith Haysom, Margaret and Eileen Allan and Mrs. Harry Gardner motored to Calgary on Wednesday, Miss Haysom and Mrs. Gardner returning on Sunday.

A party consisting of Mr. and Mrs. R. Gillies, Sam and Margaret, Mrs. M. Wilson, Jim, Adam and Bob, and the Misses Nettie and Helen Thompson left Saturday afternoon on a motor tour to Spokane and other points. Miss Helen Thompson, who has spent her summer vacation at the home of her grandparents Mr. and Mrs. M. Wilson, will leave the party at Spokane and continue to her home in Seattle.

Mr. and Mrs. W. J. Rogers and sons visited at the home of Mrs. J. Rogers last week. They had not been in Coleman for thirteen years, and a party, in the form of a family reunion, was held at Mrs. J. Rogers' in honor of the occasion. Those present were: Mr. and Mrs. C. Rogers and family, Mr. and Mrs. W. Hoggan and family, Mr. and Mrs. J. Rogers and Emma, and Mr. and Mrs. W. J. Rogers and boys.

Main Street, COLEMAN

Miss Janet Gillespie had her application accepted for a post graduate course in the Escondido Mental Hospital. She will start her duties early in October.

The Coleman Rd and Gun Club held its third fishing trip of the season on Sunday when the members motored to the North Fork. The day was ideal and the prizes were distributed as follows: Best speckled basket, Mathew Wilson; best mixed basket, Steve Kubie; heaviest speckled trout, Mathew Wilson; largest grayling, Steve Kubie. The prize for the heaviest bull trout was not competed for owing to no competitor weighing a bull trout in.

Thirty Years Ago

30 Years Ago items in the Cranbrook Courier contained the following:

"H. N. Galer, retiring assistant general manager of the Granby company, in the Boundary, is leaving for Coleman, Alberta, to become vice-president and general manager of the International Coal & Coke Co. which is installing an extensive plant, the mines having an output of 250 tons a day."

Since the days of which the foregoing was written, extensive developments have been made, and from an output of 250 tons per day, it has been increased to a capacity of 3,000 per day.
